Application

The first of its kind, the Dialight SafeSite® LED High Bay luminaire was designed specifically to replace conventional lighting in a wide variety of Hazardous Area applications, both indoor and outdoor. Its low profile light weight design and versatile mounting options make it ideal for High Bay and Flood Lighting applications for ATEX and IECEx classified Hazardous Area Zones.

All of Dialight's long life LED luminaires are designed to meet the most demanding specification criteria while offering maximum energy savings, reduced maintenance costs, and a superior quality of light.
