Application:

The Dialight DuroSite® LED Shower Safe Emergency Bulkhead luminaire has a rugged design to ensure long life and high reliability when used to identify emergency showers on large industrial sites. Specially designed optics and 360° viewing angle make this a high visibility light unit for this application. This self-contained maintained emergency luminaire offers a minimum of 3 hours of illumination equal to 10% of the standard output. It is ideally suited for explosive environments, mills, chemical plants and other hazardous environments where emergency shower areas are required. Dialight offers flush, angle, stanchion mounting bracket and adjustable mounting options for use with the DuroSite Bulkhead as well as a recessed housing.
